

GSB Non-Asbestos NBR Based Sheet

A Premium grade non-asbestos gasket material manufactured with synthetic fibers and NBR binders. It is recommended for **more severe applications in sealing oils, solvents, fuels, mild acids and alkalis, and general services conditions up to 750 F.**

Features and Benefits:

- Excellent sealability
- Improved torque retention
- Drastically lowered emissions levels
- Cuts operational costs through reduced waste, maintenance, stocked inventory, fluid loss, and energy consumption
- Available in sheet or cut gasket form

Specifications of GSB Non-Asbestos NBR:

Color	Blue	
Composition	Unique blend of aramid fibers, fillers and an NBR rubber binder	
Max. Temperature	750°F	399°C
Min. Temperature	-100°F	-73°C
Continuous Max.	400°F	205°C
Max. Pressure	1000 PSI	70 Bar
Maximum PxT 1/8	350,000 (°F x PSIG)	12,000 bar x °C
